Roll	16
Classrooms	1
Lunch in Schools	Yes
Swimming Pool	Currently under repair

Mauriceville School is a small rural school located on the edge of the Mauriceville Village, only a short 15 minute drive north from Masterton.

We pride ourselves in the supportive, family friendly nature of our school and take care to ensure our children's educational and social needs are well catered for. Our small class sizes allow our children more individual interaction with our experienced teachers.

Our students are a mix of both country and town and we have a school van that transports some of our students to and from Masterton each day.

We have a strong values system at our school that we encourage all our students to follow.

Mauriceville students show **PRIDE**

**Proud** - we are **PROUD**.

**Responsible** - we are **RESPONSIBLE**.

**Integrity** - we show **INTEGRITY**.

**Determined** - we are **DETERMINED**.

**Engaged** - we are **ENGAGED**

Our children have the opportunity to mix with other school children their age through our sports cluster activities; these include Swimming, Cross Country and Athletics. Our cluster includes Tinui, Wainuioru and

## Curriculum/Key learning areas

We are currently reviewing our school curriculum and beginning a process of consultation with our whanau and community to ensure that we develop a curriculum that is responsive to the needs of our students, whanau and the community.

Being a rural school but in close proximity to Masterton allows us to make the best of both town and country learning opportunities.

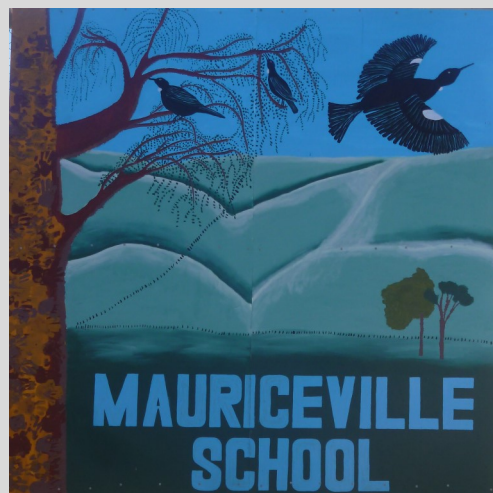

Our students have great respect for the outdoor environment which means we will continue to focus on sustainability and environmental awareness, along with the other key curriculum areas of literacy and numeracy.

Providing a balanced curriculum which is specific to our school and equips students with the skills to become confident citizens of an ever changing world.

Opportunities for leadership and extension are provided to our students through activities like Rural Kids, Sports Teams and Activities, Education Outside the Classroom experiences, as well as through REAP in Masterton which facilitate activities like Nga Tamatoa, Poi Porotiti, and the Wairarapa Schools Art Display.

## Enviroschools.

We are currently a bronze enviro-school and are focusing on achieving our silver status in the near future. As an enviro-school we focus on sustainability and developing environmental awareness with our students. Mauriceville students are the Kiatiaki of our local reserve and have worked hard to make this a place that supports local flora and fauna.

## Rural Kids.

Our year 7 & 8 students participate in the Rural Kids programme with students from Whareama, Wainuioru, Tinui and Opaki Schools. Together these schools share skills and provide opportunities for students to get to know other year 7 & 8 students. Some of the activities the students participate in include Woodwork, Squash, Gym, Art, Boxing and STEM activities.
